

## WHOLESOME STYLE OF LEADERSHIP SKILL: INTENTIONAL LEADERSHIP

---

**“All that counts in life is intention.”** Andrea Bocelli

**“Our intentions create our reality.”** Wayne Dyer

---

### **DEFINITION:**

Intention is a powerful force motivating everything we are and do. Whether our intentions are conscious or unconscious, they propel us accordingly.

Inspiring, heartfelt and meaningful intentions align our thoughts, emotions, actions, strategies and tactics towards the same direction. They give us stamina, determination, devotion and the strength to persist in our paths.

Intentions support us in focusing our attention on what matters most to us. They have great impact on what we see and perceive in our surroundings in terms of helpful synchronicities towards the manifestation of those intentions.

Intentional Leadership utilizes the power of intentions to drive manifestation, success, satisfaction, choice and results.

Instead of existing by default, intentional leaders craft clear intentions for themselves on their path of manifestation. Those intentions provide Leaders with willingness, transcendence, humility and strength to keep moving forward in the game of life.

Intentional Leadership demands the discipline and grit of holding on to our intentions as guideposts showing us our way forward.

---

### **BENEFITS:**

1. Promotes direction, guidance and focus.
2. Supports clarity of purpose and alignment of actions, thoughts and emotions.
3. Enhances simplicity and efficiency of words and actions.
4. Facilitates sharing our vision, mission and goals with others.
5. Enhances teamwork connection and effectiveness.
6. Provides opportunity to clarify important values and live in accordance to them.
7. Offers motivation, enthusiasm and hope.
