

RESULTS STYLE OF LEADERSHIP 'ESSENTIAL VIBRATION'

"It's within you that the Divine lives." Joseph Campbell

"Within you is the divine capacity to manifest and attract all you desire." Wayne Dyer

DEFINITION:

'Essential' refers to what is absolutely necessary, and indispensable. It also refers to a fundamental, innate, underlying characteristic. 'Vibration' comes from the Latin *vibrationem* which means 'shaking, bradishing' like a wave in the air, or a sound, or a frequency. Thus, 'Essential Vibration' means the original, innate vibrational quality endowed upon each one of us by virtue of our creation. It precedes the body, the intellect and the emotions; and is independent of our own making. It's been beating rhythmically within us before our hearts were fully formed. It's been so omnipresent that, most often, it goes unnoticed. With 'Willingness' and 'Absorption', however, we can recognize our 'Essential Vibration' as something utterly simple and yet deeply meaningful within us. In this recognition, we establish it as a reference point for what or who we truly are; and we can return to it to find refuge, recharge, rebirth, nourishment, guidance and well-being. As we consciously return to our 'Essential Vibration,' every atom in our body is activated and recharged, changing our bioenergetic field, and preparing us to stand right in the nexus of the 'critical axis', where Vertical Leadership meets the Horizontal Dimension. This sacred inner place of our 'Essential Vibration' is where the Next Level Leader is empowered from within and ready to manifest Next Level Leadership.
